

August 17, 2010

Dear Mr. Shipley,

I would like to thank Chili Soccer Association for its generous donation to my eagle project by agreeing to fund whatever project expenses which I was unable to have donated by other involved parties. There were many of the materials and tools which I was able to solicit donations, but the lumber was by far the largest expense, even at a reduced price, so I was glad to have the financial backing to keep my plans for this project alive. I appreciate the time and effort the entire board took to approve my project and make the initial thoughts and ideas come to fruition.

The project was a huge success and overall there were only a few minor setbacks along the way. Thank you Mr. Shipley for the gracious contribution to a cause that was very important to me. I have completed my eagle scout project, which was the creation of the soccer rebound wall in Davis Park, and now just have a little more paperwork and meetings to attend before I receive the rank.

Thank you,

Kevin May
